Life Education Starts
Orienteering
Matariki Holiday (School Closed)

Kia ora koutou.

As mentioned a couple of weeks ago the cold and flu season is well and truly upon us. Unfortunately we are also starting to see the signs of a gastro bug that is making itself prominent in schools at the moment. Please keep your child at home if they are looking or feeling unwell, the gastro bug is very contagious and not pleasant for the students who are catching it.

Life Education started today. Nicky and Harold the Giraffe will be with us for the next 3 weeks. Each class will get to visit them in the mobile classroom at least twice. Life Education provides specialised teaching of the health curriculum.

Tomorrow is the inter-school orienteering event held at Aria. We have nine teams of students from years 4-8 attending. Good luck everyone, remember to take a warm change of clothes as it gets very muddy down there.

Ngā mihi,
Scott Lincoln
Principal

SCIENCE

The Mighty Middle Syndicate used materials to demonstrate what happens to food when it is digested. We used weetbix as a dry food, water as saliva and banana as a moist food. Once the food was chewed (using scissors as teeth), we used a funnel as the entry to the oesophagus. Our fingers acted as the tongue muscle. Next, we added green dye for stomach acid and used a stocking as the large intestine. Lastly, was a cup to act as the toilet at the end! It was a great way to learn science and understand the jobs of certain organs. Check out our Facebook page for more photos.
